We look to provide our Early Help partners in education with up to date information on E.H resources and relevant information for professionals, young people and Families. Our monthly Early Help updates are an important, agile product, we make available to you. Click on the image on the right to see an example.

During this challenging time our Early Help Hubs will be delivering business as usual, but in a different way.

We are still responding to Requests for Early Help Support, however due to safety measures such as the need for social distancing and keeping families and workers safe, there may be some changes as to how we contact families and share information as part of a multi agency response.

We may take a little bit longer to get back to you regarding your request. We will however deal with all requests and prioritise, on the basis of level of need.

Virtual Early Help Support for professionals

The FREE (downloadable) Google meet app, is connecting professionals via virtual meetings. Click on the image left to see how to download and use this app.

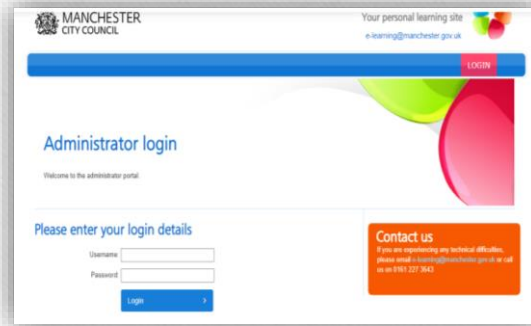

The Central District Early Help Champions meeting in April, was well attended by a range of agencies. Important information was shared between education, health and social care professionals. To join your next meeting download the app and click on the image left to email your interest.

We are able to still undertake E.H briefing sessions that result from our Quality Assurance of all E.H.A's registered by your school. Virtual meetings enable us to explore individual E.H.A's and explain how improvements can be made to the information being captured and recorded. by professionals. All agencies who have taken part have reported the process to have been a helpful and informative one.

On line Early Help Assessment Training.

As a member of the Continued Professional Development Service, we are proud to inform you, that all of our available training resources are C.P.D Certificated.

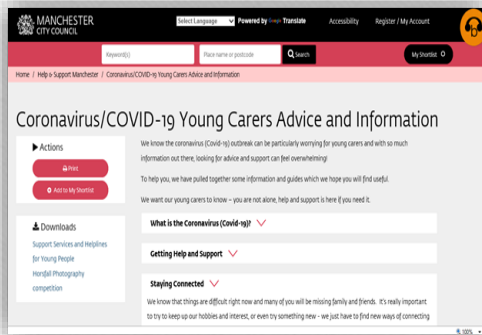

Manchester professionals were **the first in the U.K** to receive a C.P.D accredited Certification, as an **Early Help Assessment practitioner**. To find out more on how members of your team can access this Free on line course and go on to gain the Certification just click on the image left.
